United States Army : Static Line Parachuting Techniques and Training before purchasing it in order to gage whether or not it would be worth my time, and all praised Static Line Parachuting Techniques and Training:

This manual contains basic and advanced training and techniques for static line parachuting. It is designed to standardize procedures for initial qualification and training of personnel in their duties and responsibilities in airborne operations. The jumpmaster, assistant jumpmaster, safeties, DACO, DZSTL, and DZSO occupy key positions in airborne operations. This manual contains the initial training and qualifications of the personnel designated to occupy

these critical positions. This publication was prepared by the U.S. Army Infantry School.
