Then I sent her a pack of adhesive backed 8.5 x 11-inch magnet paper. She and my granddaughter cut them out and adhered them to the magnet paper so they live happily on the refrigerator. I love steampunk designs and these are winners, guaranteed to bring smiles to the faces of all who see them!8 of 9 people found the following review helpful. Beautiful Paper Dolls.... Except not on Card StockBy R. BradleyAdore the subject (B4 I knew it had a name) and this links nicely with interest in PD's

Transform these otherworldly paper dolls into a wild array of steampunk characters! From an intrepid Arctic explorer and a vampire hunter to a freewheeling airship mechanic and a treasure-toting pirate, these steampunk personalities are primed for adventure. Each of the four dolls comes with several imaginative outfits plus a full complement of playfully bizarre accessories, including equipment and animal companions. Captions identify each accoutrement. See inside for details of two bonus costumes, available online.
