Alison Boyd Rasmussen : Steffie: Out of the Box: An inside peek at a fan's eclectic collection (Volume 1) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Steffie: Out of the Box: An inside peek at a fan's eclectic collection (Volume 1):

5 of 5 people found the following review helpful. What a treasure!!!! By Arabella I am SO happy I came across this book while looking for new Barbie books. I had no idea any book on the Steffie face-sculpt existed, and it is fantastic to now own a book full of photos of what I consider the most beautiful doll face ever, as well as very interesting facts on the specific dolls mentioned. I was ecstatic to find my absolute favorite doll -- Fashion Photo P.J. -- included, and I must admit, I'd no idea so many other prominent dolls used that very same face mold. Now, if only Mattel would make some reproductions of them! I wish the book were about ten times as thick, but that's just so I'd have the opportunity to see even more fun and wonderful pictures. I am so glad Alison Rasmussen took the time to compile this book -- it is something I never expected to see, but am so pleased to add to my collection. I really look forward to more books in the series. I highly recommend it. 1 of 1 people found the following review helpful. Nice photos of authors collection By Don Meindl Nice photos of authors collection. Sort of a scrapbook idea, which might help to identify some dolls, but not a thorough reference book. 1 of 1 people found the following review helpful. Great collection, nice pictures! By Edipanthis is an enjoyable product if you like out-of-box dolls. The pictures are nice, there's a good

selection of Steffie face and a good information about non-US Steffie faced dolls.I liked it very much!

Fashion doll, Barbie® fan, and Steffie collector Alison Rasmussen shares her eclectic collection with untraditional color photographs in this fun reference book. While not a professional photographer, the author includes many candid photos of various dolls created between 1971 and 2011, as well as a reference list of Steffie-faced dolls manufactured by Mattel and its licensed affiliates. The Out of the Box series is a casual visual reference for doll collectors and fans of the Fashion Doll Review blog. An affordable paperback collection, this series examines specific doll styles, sculpts, and collections in color photographs and descriptions. Fashion dolls are styled and dressed according to the book's theme. Resources and references are included.
