By A Customer After MANY frustrating experiences with sterling flatware dealers who did not even know the NAME of the manufacturer of my "Mystery sterling", I purchased this book out of frustration. It arrived today, and I discovered not only the maker, but the pattern name as well! Yippee! Under 5 minutes, I'm not kidding, it was great. NOW I can find the missing teaspoon to make the complete service. I would highly recommend this book to anyone interested in
