Didier Laugier : Sturmartillerie. Volume 2 (French Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sturmartillerie. Volume 2 (French Edition):

French Text Due to the significance of the rare documentation and photographic records, we have decided to publish this supplemental volume to give this work full attention. Volume two will highlight other assault gun groups among which are those of the Waffen-SS. Also to be included are full-color presentations of the various uniforms, in addition

to certificates and awards.
