**From Brand: Antique Collectors Club Dist : Susie Cooper - A Pioneer for Modern Design** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Susie Cooper - A Pioneer for Modern Design:

As a woman in an industry run by men, it was her ability to anticipate the mood of the day and understand market trends that enabled Susie Cooper to keep ahead of her competitors. She produced modern pots at affordable prices and provided customers who possessed exceptional taste, but little money, with well-designed, practical and attractive pottery. Cooper's pots became symbolic of the new domestic life enjoyed by the suburban middle classes. Her career spanned seven decades and a staggering four thousand patterns ranging from the jazz modern colours of the Art Deco period to the Pop Art of the swinging sixties. This centenary book outlines and discusses Susie Cooper's major

achievements throughout her prolific career. It brings together the leading experts and authorities who reflect upon her life and work, as well as providing contextual contemporary evidence on the twentieth century ceramic industry as a whole. For the very first time known aspects of her life are brought together with the u

About the Author Andrew Casey is the author of *20th Century Designers in Britain* also published by Antique Collectors' Club. He formed Susie Cooper Collectors' Club in 1990. He has curated several exhibitions including 'Susie Cooper Productions' for Ipswich Museums and Galleries in 1989 and 'Dynamic Designers' for Croydon Museum in 1999. Ann Eatwell is assistant curator in the metalwork department of the VA Museum. She curated the retrospective exhibition, 'Susie Cooper Productions' and was the author of the accompanying book for the VA Museum in 1987. She has researched and written on modern industrial ceramic production.
