As a (then) relative newcomer to pistol shooting, I was immediately impressed by the simplicity of his instruction and the great intelligence it belied. I

searched out anything written by him and found quite a number. This, 'The Tactical Pistol', is the first I've read and my original analysis of Suarez, much to my pleasure, holds true. Most traditional "gun authors" (for want of a better description) indulge in self-aggrandizing and pompous language, immediately betraying their low estimation either of themselves and their writing ability, or worse, of the reader. Suarez does not make the mistake of falling into the trap that has caught so many (Massad Ayoob comes to mind: great content, horrible language) and simply but clearly instructs the newbie and the experienced alike in the art of using a pistol as a tool for self-defense. He includes enlightening lessons on the pistol's use in several different scenarios: home invasions, burglary, low-light situations, self-defense outside the house with a concealed firearm, etc. Very informative. Suarez, it turns out, has every right to write such a book. He's an LAPD police officer with some impressive credentials. The fact that he does not beat the reader over the head with them only serves to buttress my opinion of him. I heartily recommend this excellent work.

By Bob C Suarez covers all critical aspects of pistol shooting in depth. I bought the book and read it cover to cover. Then I went to a great 4 day handgun course given by someone else. When I came back, I read the book again, and found that their concepts and training were identical. If you are looking for a coffee table book, this is not it. You can learn a great deal from this book, if you utilize it in your practice. Read a little, teach it to your body, then read a little more. Take it to the range with you. The best handgun book I have seen to date.

By Istvan Nemes Gabe Suarez has written about gunfighting techniques for many years. In this book he mainly works over techniques covered by other writers of similar expertise. In that respect it can be quite repetitive. Pretty good and it can be quite useful in one has not covered the same ground somewhere else.

Big-city cop and gunfight veteran Gabe Suarez teaches you the most vital lessons and techniques for prevailing in any situation where you must draw your weapon. Chapters include The Dynamics of a Gunfight, The Rules of Close-Quarter Combat, Holding Hostiles at Gunpoint and more.

About the Author Gabe Suarez is a veteran of Southern California law enforcement, where he has served for many years. His extensive field experience includes single officer patrol, gang enforcement, special operations and tactical training. He was one of the founding members of his department's Special Weapons and Tactical Precision Rifle teams. The late Jeff Cooper's accomplishments in the field of firearms are almost too numerous to list. They include founder of Gunsite Ranch, editor-at-large of Guns Ammo magazine, rangemaster emeritus of the U.S. Practical Shooting Association, and Outstanding American Handgunner
