"Hope you are having as nice weather as we are. It and the people are grand." Tourists enjoying their Florida vacation might have written that message. Perhaps an elected official at the state capitol during a legislative session penned the sentiment. Maybe a student attending one of Tallahassee's several colleges intended to reassure anxious parents back home. Written on a postcard from Tallahassee in 1908, the words, whatever their purpose, still hold true.

About the AuthorAs museum exhibit designers and the authors of more than 15 books, Lynn M. Homan and Thomas Reilly enjoy telling the stories behind the pictures. In this volume, the authors explore not just the weather and the people, but also the historic buildings and the natural surroundings that make Florida's capital city the grand place it was and continues to be today.
