Dennis Adler : The Blue Book of Modern Black Powder Values: Featuring the History of 2nd Generation Colt Blackpowder Pistols before purchasing it in order to gage whether or not it would be worth my time, and all praised The Blue Book of Modern Black Powder Values: Featuring the History of 2nd Generation Colt Blackpowder Pistols:

1 of 1 people found the following review helpful. Reference guideBy F. ClarkI purchased this book more as a reference guide for Colt's 2nd generation blackpowder pistols than as a Blue Book of values. For this purpose I found the book to be very helpful identifying the various models and production numbers and dates etc. As to the stated Blue Book values, I'm no expert and leave that to those that are.0 of 0 people found the following review helpful. Blue bookof modern black powder values 2nd editionBy AllenGood book. Gives the history of black powder reproductions. Lot of information on 2nd generation colt revolvers which is what I was interested in.18 of 20 people found the following review helpful. Blue Book of Modern Black Powder ValuesBy Dr. Jim L. DavisThis book is so full of errors and misinformation that it is totally useless to the collector of modern production replica black powder revolvers. In collecting replica revolvers the markiings on the gun is what makes one more valuable than another. This is a very new field of collecting and there is still much to be learned. It is for this reason that this book does more harm than good. Where does the author get his values? Why would a Uberti revolver from one distributor be valued differently

than another when they are both marked the same. The book does not even list the most valuable variations. It appears the the "Blue Book of Values" has just come up with a way to produce another book by removing the black powder section from the original Blue Book and publishing it as a separate book. Values listed mean nothing and should not be used to determine values of replica black powder percussion revolvers. Dr. Jim L. Davis, Founder and President of the Replica Percussion Revolver Collector's Association, an international collector's association.

Will be shipped from US. Used books may not include companion materials, may have some shelf wear, may contain highlighting/notes, may not include CDs or access codes. 100% money back guarantee.
