Nice bookBy AZazz5 year old grandson pores over this book for hours.1 of 1 people found the following review helpful. Great for the beginner. Lots of pics and variations.By ramfan@home.comThough limited in the content there are quite a number of excellent pictures of different models. As a newcomer to the hobby it greatly helped in my learning. There is an excellent list of variations with prices, however they are a little outdated. Good as a starting point.
