The Illustrated Directory series provide readers with a fully illustrated, comprehensive, hardcover reference book packed with timelines, historical facts and images designed to inform and excite. At 512 pages packed with information and photographs, this book is a necessary addition to any enthusiast's library. The Illustrated Directory of Guns is the most ambitious and lavishly illustrated history of guns for the collector and enthusiast. It shows in clear, detailed photographs and text over 1500 guns with separate sections on Pistols, Revolvers, Rifles, Shotguns (military and sporting) Machine Guns, and Submachine guns. Organized A-Z by country and gunmaker's name, the book clearly shows the different types of gun which the world has used to hunt, wage war, break and defend its laws, hone its sharpshooting skills, and fire purely for the fun of it. The book also features an introduction on each section, which gives a brief history of the development of that particular kind of firearm.

About the Author David Miller is an ex-soldier and firearms specialist who has encountered and fired many of the guns featured in this book, during his military career.
