It pretend to showcase all the Badges, Patches and Embellishments of the World's Armed Forces of the 20th century, in just 224 pages. Obviously impossible. But beside this, it is only a reference book to explain the meaning of each type of item. Useful, maybe, for very beginners, but nonsense for experienced collectors. Unfortunately the preview was not available. 0 of 0 people found the following review helpful. ... - has some flawed info - but still a good reference - fast By Richard E. Simon Interesting book - has some flawed info - but still a good reference - fast delivery 0 of 0 people found the following review helpful. POORLY ORGANIZED By bethA mixed-up, poorly organized book. Poor explanations of rank structures and many ranks and units excluded. Should not try to tackle several countries in one volumn.
