**Marty Eck : The Monkees: Collectibles Price Guide** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Monkees: Collectibles Price Guide:

0 of 0 people found the following review helpful. Five StarsBy Customerok0 of 0 people found the following review helpful. The MonkeesBy Ann C. WalcherAnyone who grew up in the mid-60's, remembers the Monkees. This is a great book filled with fun facts and takes you back in time.0 of 0 people found the following review helpful. Finally! A Monkees collectible book!By Kevin StaffordI am late on reviewing this book but had to comment. I LOVE this book. Very good work and research! Great photography! It's so nice to see someone put this much effort in a Monkees collectible book. My only complaint is the records are not valued correctly. We need a Monkees record collecting guide. If not for values, just to see the great world wide covers of the albums, single and EP's that differ from country to country.Marty Eck ( Is that his real name?)bought most of the items in this book. Since most of us could never

afford such a collection or FIND some of these gems, this is a great coffee table book. Again with putting values on collectibles, any kinds, is a matter of supply and demand. To me, Ebay is where I usually can find recent values. Being a Monkees record collector, I am thinking of joining forces with a major collector in the UK to create the book I always wanted. This book is a great asset to anyone's Monkees collection! Buy it!
