before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Official 2003 Blackbook Price Guide to World Coins, 6th edition (Official Price Guide to World Coins):

4 of 4 people found the following review helpful. I'm returning itBy KnC BooksShould be titled "Price Guide to Canadian Coins". Nearly a quarter of the book is devoted to detailed descriptions of Canadian mintages. ..The disclaimer in the book is that no one could possibly cover all mintages in the space given, and that only coins the average collector is apt to encounter were included. ... A number of countries are not included at all, and the ones that were get cursory treatment in comparison...

This comprehensive reference guide contains prices of more than 4,000 coins from almost 50 countries. Compact but authoritative, this extensive source includes updated price listings, tips on buying and selling, a market review identifying current trends, hundreds of photographs, and vital information on grading and evaluating your collection. This book is ideal for all coin collectors as well as international travelers who are interested in pricing their foreign currency.
